

# Migration Scope Analysis

## Vanguard Investor Website

**Prepared for:** Adobe Edge Delivery Services Migration

**Site URL:** <https://investor.vanguard.com/>

**Date:** January 29, 2026

### Executive Summary

This document provides a comprehensive analysis of the Vanguard Investor website for migration to Adobe Edge Delivery Services. The site is a large-scale financial services platform with approximately 200+ pages across 8 distinct page templates.

#### Key Findings:

- 8 page templates identified requiring custom development
- 12-15 custom blocks needed
- Complex navigation (mega menu) requires special attention
- Extensive legal/regulatory content throughout

### Site Overview

| Attribute            | Details                                                           |
|----------------------|-------------------------------------------------------------------|
| Industry             | Financial Services / Investment Management                        |
| Estimated Page Count | 200+ pages                                                        |
| Primary Audience     | Retail investors                                                  |
| Content Types        | Marketing pages, educational articles, product information, tools |

# Page Templates Identified

---

## 1. Homepage Template

**URL:** / **Complexity:** High **Priority:** P1

### Key Sections:

- Hero carousel with rotating promotions
- Goal-based navigation cards
- Investment products grid
- Video testimonial section
- Statistics display (50M+ investors, 84% outperformance)
- Awards and recognition
- Newsletter signup

## 2. Product Hub Template

**URL:** /investment-products **Complexity:** High **Priority:** P1

### Key Sections:

- Hero with lifestyle imagery
- Expandable product category accordions
- Investment search widget
- Interactive comparison tool
- Customer testimonial quote
- Account preview carousel
- FAQ accordion section
- Email newsletter signup

### 3. Service Comparison Template

**URL:** /advice **Complexity:** High **Priority:** P2

#### Key Sections:

- Hero with background image overlay
- Expandable service tier accordions
- Feature comparison table with checkmarks
- Quiz/recommendation promo
- FAQ section
- Resource cards grid
- Legal disclaimers

### 4. Category Hub Template

**URL:** /accounts-plans **Complexity:** Medium-High **Priority:** P2

#### Key Sections:

- Hero with Quick-Start Tool CTA
- Filter tab navigation (Trading, Retirement, Savings, etc.)
- Fee transparency callout
- Two-column comparison (DIY vs Advisor)
- Awards badge
- Resource cards
- FAQ accordion
- Newsletter signup

## 5. Content Hub Template

**URL:** /investor-resources-education **Complexity:** High **Priority:** P2

### Key Sections:

- Minimal hero with text overlay
- Featured article cards with category tags
- Topic-based carousel/slider
- Tools and calculators section
- Mobile app promotion with QR code
- Topic filter dropdown with article listings
- Newsletter signup

## 6. Brand/About Template

**URL:** /about-us **Complexity:** Medium **Priority:** P3

### Key Sections:

- Distinctive hero (group photo forming "V")
- Historical timeline promo
- Awards section with 6 award cards
- Impact statistics (50M+ clients, 458 funds, etc.)
- Three-column resource cards
- Extensive footnotes

## 7. Article Template

**URL:** /investor-resources-education/article/\* **Complexity:** Medium **Priority:** P1

### Key Sections:

- Article metadata (category, read time, date)
- Social/save/print actions
- Featured image
- Rich text content with inline links
- Numbered list items with icons
- CTA callout boxes
- Related articles grid
- Footnotes and disclaimers

## 8. Product Detail Template

**URL:** /investment-products/etfs , /investment-products/mutual-funds

**Complexity:** Medium **Priority:** P2

### Key Sections:

- Product-specific hero
- Feature highlights
- Comparison content
- Related products
- FAQ section

# Block Inventory

## Core Blocks Required

| Block Name               | Description                                  | Estimated Usage   |
|--------------------------|----------------------------------------------|-------------------|
| <b>Hero</b>              | Image + headline + CTA overlay               | All landing pages |
| <b>Hero Carousel</b>     | Rotating hero with pagination                | Homepage          |
| <b>Cards</b>             | 2-3 column grid with image/icon + text + CTA | 10+ pages         |
| <b>FAQ Accordion</b>     | Expandable Q&A sections                      | 5+ pages          |
| <b>Carousel/Slider</b>   | Rotating content panels with navigation      | Homepage, hubs    |
| <b>Comparison Table</b>  | Feature matrix with checkmarks/icons         | Advice, products  |
| <b>Statistics</b>        | Large numbers with descriptions              | Homepage, about   |
| <b>Newsletter Signup</b> | Email capture form with image                | Multiple pages    |
| <b>CTA Banner</b>        | Centered call-to-action section              | All pages         |
| <b>Tabs</b>              | Category filter navigation                   | Hub pages         |
| <b>Award Badge</b>       | Recognition display with external link       | Multiple pages    |
| <b>Numbered List</b>     | Circled number icon + heading + content      | Article pages     |
| <b>Related Articles</b>  | Article card grid with category tags         | Article pages     |
| <b>Quote/Testimonial</b> | Customer quote with attribution              | Product pages     |
| <b>Video Modal</b>       | Video player in modal overlay                | Homepage          |

**Total Custom Blocks:** 12-15

# Design System Analysis

---

## Colors

| Token            | Value   | Usage                     |
|------------------|---------|---------------------------|
| Primary (Maroon) | #96151D | CTAs, accents, headers    |
| Black            | #000000 | Body text, headings       |
| White            | #FFFFFF | Backgrounds, text on dark |
| Gray Light       | #F5F5F5 | Section backgrounds       |
| Gray Medium      | #666666 | Secondary text            |

## Typography

- **Headings:** Custom brand font (likely proprietary)
- **Body:** Sans-serif system font stack
- **Font Sizes:** 14px-48px range

## Spacing

- Grid system based on 8px units
- Consistent section padding
- Card gap spacing

# Technical Considerations

---

## Challenges

1. **Complex Navigation** - Mega menu with multiple columns, requires custom JavaScript decoration, mobile responsive hamburger menu
2. **Interactive Components** - Carousels with auto-play and pause, accordion expand/collapse animations, tab panel switching, modal dialogs
3. **Comparison Tables** - Complex table structure, icon-based indicators, responsive behavior needed

- 4. **Search Functionality** - Investment ticker/name search, may require external API integration
- 5. **Legal/Compliance Content** - Extensive footnotes with superscript references, regulatory disclaimers, PDF document links
- 6. **Video Content** - Embedded video player, transcript modal

**Dependencies**

- Custom web fonts (licensing consideration)
- External APIs (search, authentication)
- PDF document hosting
- Video hosting platform

**Migration Recommendations**

**Phase 1: Foundation**

**Focus:** Establish core infrastructure

| Task             | Description                                  |
|------------------|----------------------------------------------|
| Design System    | Extract colors, fonts, spacing tokens        |
| Global Styles    | Create styles.css with CSS custom properties |
| Navigation       | Build mega menu structure                    |
| Homepage         | Migrate primary landing page                 |
| Article Template | Migrate 2-3 sample articles                  |

**Blocks to Build:** Hero, Hero Carousel, Cards, Statistics, CTA Banner, Newsletter Signup, Numbered List

## Phase 2: Hub Pages

**Focus:** Category and product pages

| Task                | Description                 |
|---------------------|-----------------------------|
| Investment Products | Product hub with accordions |
| Accounts & Plans    | Category hub with tabs      |
| About Us            | Brand storytelling page     |

**Blocks to Build:** FAQ Accordion, Tabs, Award Badge, Quote/Testimonial

## Phase 3: Advanced Features

**Focus:** Complex interactive pages

| Task            | Description                      |
|-----------------|----------------------------------|
| Advice Page     | Service comparison with tables   |
| Resources Hub   | Content aggregation with filters |
| Product Details | Individual product pages         |

**Blocks to Build:** Comparison Table, Carousel/Slider, Related Articles, Video Modal

# Effort Estimates

| Category           | Items          | Complexity |
|--------------------|----------------|------------|
| Page Templates     | 8              | High       |
| Custom Blocks      | 12-15          | High       |
| Design System      | 1 complete set | Medium     |
| Navigation         | 1 mega menu    | High       |
| Total Unique Pages | 200+           | -          |

## Risk Factors

- **High:** Complex navigation structure
- **Medium:** Interactive component JavaScript
- **Medium:** Legal content accuracy
- **Low:** Content volume (manageable with templates)

## Recommended Starting Point

1. **Design System Extraction** - Extract colors, typography, and spacing from existing site
2. **Homepage Migration** - Establishes majority of blocks needed
3. **Article Template** - High volume, validates content workflow
4. **Navigation Setup** - Critical dependency for all pages

Analysis prepared using automated site exploration and content inventory tools.
